The Executive Vice-Chairman/CEO

National Agency for Science and Engineering Infrastructure (NASENI),
Idu Industrial Layout, Abuja

Dear Sir,

ENDORSEMENT LETTER ON BEHALF OF ENGR. NASIRU AUDU PhD, MNSE, Re-COREN

I am delighted to write an endorsement letter for Engr. Nasiru Audu PhD, an Ahmadu Bello University, Zaria-trained Chemical Engineer with a track record of outstanding research efforts. Among the published works of Engr. Nasiru Audu PhD is the “Design and Construction of a Parallel Cyclone System for Kaolin Beneficiation,” published in the **Research Journal of Applied Science (2019) 14 (11) 365-369**.

The team of researchers that he headed is known for its high competence and integrity. To this end, a golden opportunity to commercialize the research work will encourage them for more and I have no hesitations in endorsing the research effort for sponsorship for commercialization by your agency for the benefit of mankind. Therefore, the work is highly recommended.

Please kindly accept the assurances of my highest regards.

Sincerely yours,

Dr. Funsho Olowoniyi
Director TCECEED
