Subject: Formal Endorsement and Strong Recommendation for Dr. Idris Musa for NASENI Funding Consideration

Dear Sir/Madam,

I am writing with great enthusiasm and confidence to wholeheartedly endorse Dr. Idris Musa for funding consideration by the National Agency for Science and Engineering Infrastructure (NASENI). I have known Idris for 15 years in my capacity as his Mentor in the Tech Innovation Hub and have been consistently impressed by his ingenuity, technical prowess, and unwavering dedication to solving pressing local challenges through engineering and innovation. Idris has conceptualized and developed a groundbreaking project: Microcontroller Based Pulse Oximeter with System Enhanced with Random Forest-Based Adaptive Algorithm for Accurate, Non-Invasive Covid-19 Detection. This innovation directly aligns with NASENI's core mandate of fostering home-grown technological solutions for infrastructure development, agricultural advancement, and sustainable energy.

What sets Idris apart is not just his technical skill but his profound understanding of the problem he is solving. His work has practical relevance, technical soundness and entrepreneurial spirit. Dr. Idris possesses a clear vision for the commercialization and scalable impact of his project, showing a keen awareness of its potential for job creation and industrial application. I have had the opportunity to review his project proposal and am convinced that with NASENI's support, this idea can be transformed into a tangible, impactful reality that will benefit the Nigerian economy. Idris is a disciplined, focused, and reliable individual who I am certain will utilize any grant or funding with the highest level of integrity and purpose.

Therefore, I give my unreserved and strongest recommendation for Dr. Idris Musa. I am confident that he is precisely the type of innovative mind that NASENI seeks to empower, and investing in his project will yield significant returns for the nation.

I am available for any further information you may require. Please do not hesitate to contact me.

Yours sincerely,

Engr. Professor A. D. Usman
Professor of Telecommunications & IT Engineering.
ABU, Zaria.
