NASENI Research Commercialization Grant Program (NRCGP)  
National Agency for Science and Engineering Infrastructure

Dear Review Committee,

I am writing to wholeheartedly endorse the grant application submitted by our team at Electronics Development Institute (ELDI) for the commercialization of the Automated Poultry Management Battery Cage System. As the Overseeing Officer of ELDI, I am delighted to support this innovative project.

The Automated Poultry Management Battery Cage System is a cutting-edge technology developed at ELDI, designed to improve poultry farming efficiency, reduce labor costs, and enhance animal welfare. This system has the potential to revolutionize the poultry industry in Nigeria and beyond.

I hereby endorse this grant application, confirming that ELDI has the necessary infrastructure and expertise to support the commercialization of the Automated Poultry Management Battery Cage System. We are confident that this project will contribute significantly to the growth of our economy, improve food security, and enhance the livelihoods of poultry farmers.

The commercialization of the Automated Poultry Management Battery Cage System will:

- Increase poultry farming efficiency and productivity
- Reduce labor costs and improve working conditions
- Enhance animal welfare and reduce disease outbreaks
- Create jobs and stimulate economic growth in the poultry industry

I strongly recommend that NRCGP consider this grant application for funding. We look forward to collaborating with NRCGP to bring this innovative technology to the market and make a positive impact on the poultry industry.

Sincerely,

Engr. Dr. Ogungbenro, Oluwaseyi A.  
Overseeing Officer  
Electronics Development Institute (ELDI)
