We are pleased to express our interest in supporting your industrial research and commercialization initiative titled:

"Industrial Research, Development, and Commercial Production of Sweet Potato Starch Derivatives, Sweet Syrups, Adhesives, and Feed Formulations for Consumer and Agro-Allied Markets."

ARYK Pharm and Agro-Allied Ltd is engaged in the production of herbal pharmaceuticals, the importation of conventional medicines, and the distribution of agro-allied products. As part of our expansion strategy to integrate local raw materials and eco-friendly components into our packaging and manufacturing operations, we have evaluated your starch-based product line.

We specifically confirm our intention to offtake the following products:

- Sweet potato starch-based corrugated board adhesives, for internal packaging use.
- Nutritionally formulated animal feed, suitable for livestock partners in our agro-allied division.

We are confident that the locally sourced, high-quality materials developed through your pilot-scale facility will support sustainable, cost-effective operations and meet industry-grade quality standards.

We look forward to a mutually beneficial commercial relationship and are happy to support your proposal with this expression of intent.

Warm regards,
