18th of September, 2025.

The selection committee,

LETTER OF RECOMMENDATION

Dear Sir/Ma,

I would like to use this medium to write on Dr. (Mrs.) Ofure Benedicta Imoisi, with academic qualifications including a B.Sc. in Industrial Chemistry, an M.Sc. in Analytical Chemistry, and a Ph.D. in Food Chemistry. She is the immediate past Head of the Biochemistry Division and currently serve as the Head of NIFOR Integrated Enterprise Limited. She has over 15 years of experience in scientific research, development, and innovation within the agricultural and biochemical sectors.

I am writing to provide my strong recommendation for her, who is applying for a grant under the NASENI Commercialization Grant Scheme on the topic ‘‘Large scale production and packaging of oil palm fruit Mesocarp Juice (Banga sauce) in flexible Aluminium pouches’’. I have had the privilege of working closely with her and have found him to be a diligent, innovative, and highly resourceful individual. His technical expertise, combined with a strong passion for research and development, makes him an outstanding candidate for this opportunity.

She possesses a remarkable ability to translate theoretical knowledge into practical, results-driven solutions. She consistently demonstrates initiative, creativity, and commitment to excellence in all his undertakings. I am confident that his project proposal will align with NASENI’s goals of fostering innovation and driving commercialization of indigenous technologies.

I strongly endorse her for this grant and have no doubt that he will be a valuable asset to your institution. Her integrity, professionalism, and dedication to impactful research are commendable.

Please feel free to contact me should you require any further information.

Yours faithfully,

Prof Charles Oluwaseun Adetunji (Ph.D, AAS affiliate, FRSB (UK), FBSN, FNYA, NFP fellow, MASHAV fellow, DBT fellow, CSIR fellow, MNYA; MBSN; MNSM, MNBGN)

Director of research and innovation, Edo State University, Uzairue, Edo State, Nigeria.
