The Project Team  
ZO~BOX (Automated Zobo Drink Making Machine)  
University of Nigeria, Nsukka

### LETTER OF INTENT TO OFFTAKE

Dear Project Team,

We hereby express our intent to enter into an offtake arrangement for the ZO~BOX (Automated Zobo Drink Making Machine), developed and patented by your team. Having reviewed the concept and its potential to transform the production of Hibiscus sabdariffa (zobo) into a hygienic, standardized, and scalable process, we are confident that this innovation aligns with our business objectives and market needs.

Upon successful commercialization and availability of the product, our organization intends to procure five (5) units of the machines for deployment within our beverage operations at the University Mall. We also express interest in exploring further collaboration in areas such as distribution partnerships and operator training programs associated with the technology.

This letter of intent is not legally binding but demonstrates our readiness and willingness to partner with you in advancing the commercialization of this indigenous innovation for the benefit of Nigeria's economy and its growing agro-industrial sector.

We look forward to engaging further to finalize the terms of engagement.

Yours sincerely,

*sunnychime*
