**LETTER OF INTENT IN RESPECT OF THE NASENI RESEARCH
GRANT**

I write to indicate my support and place an advisory role to ensure a successful implementation and scalability of the project titled: ‘Pilot Scale Production of Activated Charcoal from NIFOR Biomass’. This initiative is designed to transform agricultural residues from NIFOR mandate crops into high quality activated charcoal through sustainable and cost-effective methods.

The project is motivated by the urgent need to address agricultural waste management challenges while creating value-added products that serve industrial, medical and domestic needs.

Thank you for your anticipated cooperation.

Yours Sincerely,

A handwritten signature in blue ink, consisting of a stylized 'M' and 'A' followed by a horizontal line.

Dr. Mabel Amen Akhere
